RE: Letter of Support for Shasta-Trinity National Forest Service's Grant Application

The Trinity County Board of Supervisors has formally voted on and approved supporting the Shasta-Trinity National Recreation Area's grant application to the Department of Boating and Waterways for improvements to the Trinity Center boat launching facility.

The Trinity County Board of Supervisors supports the project as outlined in the grant application as well as the anticipated public and economic development benefits that will be generated from the project. Trinity Lake is a central feature of Trinity County's tourism industry and the proposed improvements will greatly contribute to increased public safety and improved public experience when recreating in Trinity County.

In addition to the Trinity County Board of Supervisors support, the grant has garnered the support of the Trinity County Collaborative Group, a County sanctioned, broad-based stakeholder group representing varied interests and opinions, working toward economic and recreational development in Trinity County.

The improvements to the Trinity Center boat launching facility, as outlined in the grant, have broad-based support, and would greatly contribute to improving both Trinity County's economy and the public's recreation experiences at Trinity Lake. We greatly appreciate your consideration of funding this grant.

Sincerely,

Judith N. Pflueger, Chairman  
Trinity County Board of Supervisors
